Re: Patrick J. & Kathryn Comerford

Attn: Mandie Cantlin, Assistant Manager

The Chester County Health Department has received information pertaining to residence of Patrick J. and Kathryn K. Comerford who appear to be planning a change in use from their residency to a bed and breakfast. The Chester County Health Department cannot complete a Review at this time until the following information has been submitted and questions have been answer:

A copy of an existing sewage permit that tells the Sewage Enforcement officer when the existing sewage was installed and what the maximum daily flows were for the existing septic tank and current drain field?

How many bedrooms will be in total structure?

How many meals will be served for the guess?

A certification report must be submitted to the Chester County Health Department from an outside contractor stating the current conditions of the existing septic system.

A projection of maximum daily flows of sewage generated by the current residential use the additional flows created by the commercial use.

Once the Chester County Health Department has this information a decision will be determined if a sewage permit will be required to upgrade the sewage disposal system.

Thank you.

Sincerely,

Eric Lynch
EHS
